## **Five Star Freezer Cleaner™**

### **Description**

---

- Heavy-duty, ready-to-use degreaser designed for use in sub-freezing temperatures as low as 40°F.
- Quickly penetrates and removes grease, oil, grime, fat and protein-based soils without the need to defrost.
- Will not leave any slick residues.
- Safe on most surfaces including metal, concrete, tile, plastic, rubber or painted surfaces.
- Use on floors, walls and equipment in sub-freezing environments such as freezers, coolers, refrigerators, walk-ins, meat lockers and cold storage areas.
- All-natural, bio-based and biodegradable.

### **Safety Profile**

---

It dissolves existing ice and will not leave a slippery residue to ensure a safe working environment for personnel and moving equipment. It is convenient with a ready-to-use formula that eliminates employee confusion and reduces liability claims. A versatile formula that can be used in conjunction with auto scrubbers, rotary floor machines and manual cleaning (spray, mop or sponge). The all-natural, bio-based formula is completely biodegradable without any perfumes or dyes.

### **Technical Information**

---

Usage	Dilution Ratio	RTU
Physical Properties	Appearance	Liquid
	Color	Clear
	Fragrance	None
	pH	7
	Shelf Life	Minimum 1 Year
Packaging	9602-001	(4) 1gal./3.78L

### **Applications**

---

#### **Automatic Floor Scrubbers:**

Fill Tank with properly-diluted product.

Double-scrub method will give best results. Lay down solution with scrubbing action and allow solution to remain on surface 5 minutes.

Then, lower squeegee blade, scrubbing again, and vacuum soiled solution.

#### **Rotary Floor Machine:**

Apply by spraying, mopping or spreading properly-diluted solution on surface to be cleaned, scrub and allow solution to remain on surface for 5 minutes.

Scrub again and pick up soiled solution with wet vacuum or mop.

#### **Manual Cleaning:**

Apply solution by spray, mop or sponge. Follow with aggressive double-brushing or scrubbing.

Pick up soiled solution with wet vacuum, mop or by wiping.

Remove all unpackaged food before cleaning. Food contact surfaces must be rinsed with potable water.
