Snake Guard[™] Snake Repellent

Description

- Snake Guard[™] Snake Repellent is highly effective on poisonous and non-poisonous snakes.
- Effective repellent for 2 to 3 months - not harmed by rain.
- As a snake approaches the product, its sensory perception is alerted, and the snake turns away leaving the area.
- When applied as directed, it is safe to people, pets and the environment.
- Snake Guard[™] Snake Repellent is a dry, granular mixture which is easy to apply by lightly sprinkling around homes, commercial businesses and institutions.
- Normal rainfall will not diminish the effectiveness of the Snake Guard[™] Snake Repellent.
- All-natural, bio-based and biodegradable.

Technology Profile

In snakes the Jacobson's organ is used with the tongue to sense its environment. The snake flicks out its tongue and picks up the scent of vapor molecules.

When the snake pulls in its tongue, the vapor molecules are transferred to the odor-sensitive Jacobson's organ.

Technical Information

Usage	Dilution Ratio	RTU
Physical Properties	Appearance	Powder
	Color	Beige
	Fragrance	None
	pH	N/A
	Shelf Life	Minimum 1 Year
Packaging	7777-005	(1) 5 gal./18.9 L

Application Directions

Using gloves, apply in bands surrounding the area to be protected.

Use bands 4-5 inches wide to repel checkered garter snakes.

For rattlesnakes, use bands 8-12 inches wide.

In yards, lightly sprinkle Snake Guard[™] Snake Repellent over areas within the treatment band.

When the odor of Snake Guard[™] Snake Repellent becomes faint, its effectiveness may be diminished.

If this occurs during a season when snakes are active, re-treat with enough of the product to restore the original odor intensity.

Re-treatment may also be necessary after extremely heavy rains. Apply Spring, Summer and Fall.
